AN "EVE" HAS ARISEN WHO WILL NOT BOW THE HEAD TO ADAM

A Woman Has Been Evolved
Who Will Not Submit to
the Tyranny of Man Any
Longer.

A MODERN EVE

An Interesting Letter to the
Independent From an Up-
to-Date Eve.

To the Editor of the Grimsby
Independent.

Sir:—Modern Eve on the
evolution of woman.

Yes, it has taken God years to
get one Eve evolved up to the point
to stand up for womanhood and it
is the evolution of an Eve after
God's own heart, not one of either
male or female species of this
world, that is of the earth, earthy,
but one who has become an associate
of God's society, the only upper
ten in existence. God has been try-
ing to get woman to look after her
rights since the world was created.
He could do nothing until one
woman got on her feet and wanted
his help.

Woman has crawled in the dust
as long as she intends to. God made
Eve a free woman and man's equal
indeed God created her as man's
helpmate, and in this has made use
of the helpmate ever since to further
his own ends. Man both used woman
and abused her in ways God never
intended he should. So God set
about to evolve one woman to solve
the problem of Adam and Eve and
to settle it forever.

God made Adam after His own
image. God made Eve with only a
little bit of Adam and all the rest
of her Godlike. Because Adam was the
first created he thought he was lord
and master over God's heritage and
his ideals and opinions of how woman
should act was the standard.
Therefore, Adam became a tyrant.
How could he help doing so when he
usurped God's place as he did.

After God placed Adam and Eve in
the Garden of Eden, God said that
all the fruit in the garden was for
them, but one tree, and that was
the tree of knowledge of good
and evil. God wanted the privilege of
teaching the right use of that
fruit. That was man choose his own
natural instincts as teacher, he
knew it all, he preferred his own
way to God's way. Therein lies the
downfall of man. Poor Adam, man-
like, after his own natural instincts,
persuaded or forced Eve to think as
he did when he saw what he had
done, was afraid of God and turned
traitor and coward, lied about Eve
and blamed the whole thing on the
woman and Eve, feeling Adam's
blame, was afraid to take her own
part. Through her fear Eve went
down with Adam and women have
been slaves to men ever since, be-
cause she protected Adam from the
result of his own act, instead of
standing up for her own rights as an
independent being before God and
let God right the wrong that Adam
had done to her.

No wonder there was a murderer
in their family and the murderer a
man, the result of Adam's act return-
ing on his own head. Eve had to
suffer with him because she was pro-
tecting him.
Adam thought he could fool God.
It was Adam's selfishness that made
him lie to God. That shows how big
a fool man or woman can be in their
natural state.
After all, man's acts of wrong
hurt the one most who commits the
acts.
I know all about the Adams. I
had a father, several brothers and
a married one. Every one of them
thought woman was made for their
comfort only, they never saw the wo-
man's side of the question; but my

**\$4000 TO OIL Q. &
G. STONE ROAD**

One of the large items of expendi-
ture in connection with the Q. & G.
road this summer will be that of
oil for the road. The thirty
miles of roadway between
North Grimsby and Queenston will
be covered with solutions of oil at an
approximate cost of \$4,000.
The oiling of the road has proven
to be the most successful method of
curbing the dust nuisance. Hundreds
of automobiles passing over the mac-
adam whip up the dust and make
travelling disagreeable, if an effort is
made to prevent it. The applica-
tion of oil is made in the manner
of ordinary street sprinkling, tank
cars being used.
The Village of Merriton also uses
oiling on the two miles of macadam
roadway which is its main thorough-
fare.

PROF. GRAHAM'S TALK TO THE POULTRYMEN

Breeding, Feeding, Housing,
Watering, Rearing and
Fattening of Poultry were
Points Interestingly Dis-
cussed.

WILL HOLD SHOW

A Special Meeting will be
Held Next Monday to Dis-
cuss Show Matters.

The poultrymen of the Grimsby
District who failed to attend the talk
on Friday evening in Wardell's Hall,
Professor W. R. Graham, of the On-
tario Agricultural College, missed
something worth while, and those
who were fortunate enough to be
present spent two very interesting
hours.

It can certainly be said of Profes-
sor Graham that when it comes to
poultry, he knows what he is talk-
ing about, and he has the manner of
making his talk very interesting.

Professor Graham is a not only
lecturer in the true sense of the word,
he simply talks and his talk was so
interesting and so full of practical,
every-day knowledge, that every
poultryman simply sat and listened
with the most intense interest.

The Professor covered almost
every imaginable point, breeding,
feeding, housing, watering, rearing
and fattening, in all their phases.

His remarks with regard to breed-
ing contained a fund of knowledge
and many points that he revealed
were new to even experienced breed-
ers.

It was so also with regard to his
remarks on egg production and
many other of the points.

Mr. Graham had missed his car in
Hamilton and it was when he ar-
rived and he did not commence to
speak until 8.30, but not a poultry-
man moved until after 11 o'clock.

Besides Grimsby poultrymen, there
were some present from Beamsville
and Grassies.

Before Mr. Graham arrived, a busi-
ness meeting was held and it was
unanimously decided to hold a
poultry show next fall and a commit-
tee was appointed to attend the dis-
trict meeting at Beamsville, on
Tuesday evening, May 13, and to con-
fer with the Beamsville poultrymen
on the matter of dates.

A motion was passed, fixing a regu-
lar monthly meeting for the first
Friday of every month.

It was also decided to hold a special
meeting on Monday evening,
May 19, to discuss a poultry show.

All the poultrymen in the district
are invited to be present and those
who are not now members are polio-
lited to become so. The fee is one
dollar per year.

FIRST MATINEE NEXT SATURDAY

As announced last week the first
matinee of the season will be held
at the Grimsby Driving Park, next
Saturday afternoon, when a pro-
gramme of matinee races will be
run off. This matinee is held to fry
out the horses, so that the climatic
conditions will be able to class them
properly for the following matinees.
All the horsemen are invited to be
present and the admission to the
public will be only ten cents. Grand
stand free. First race called 2.45.

WORK ON NEW POST OFFICE GOING AHEAD

Mr. Murphy, president of the Sim-
coe Construction Company, of Tor-
onto and Midland, was in Grimsby
on Saturday last, and made further
arrangements about prosecuting the
work on the new Post Office build-
ing. He about completed the arrange-
ments with D. Marsh & Sons to do
the wood work. The excavating is
down about far enough now for the
laying of the cement footings and
as soon as the footings are down,
the brick layers will commence.

NO MORE BOTTLES FOR THE BOOZERS

The Hotel Keepers Ceased
to Sell Bottles on Satur-
day Night Last and the
New Law Came in Force
on Monday Morning.

A GOOD LAW

If You Want a Drink in the
Morning You Can Wait
Until 8 o'clock or Go to
the Pump.

One of the best laws ever passed
by the Whitney Government came
into force on Monday morning, May
12, when the new amendment to the
Liquor Act became operative.

There are just three clauses in
this amendment:

First—It is against the law for li-
censed hotel-keepers or saloon-keep-
ers to open their bar-rooms and sell
liquor before 8 o'clock in the morn-
ing.

Second—It is against the law for
licensed hotel-keepers or saloon-keep-
ers to sell liquor over the bar,
that is not to be consumed on the
premises, or in other words, it is
against the law to sell liquor by the
bottle.

Third—It is against the law for
any man to buy liquor in a bar-room
in the bottle and take it away with
him.

The selling of liquor in bottles by
hotel-keepers and saloon-keepers,
has done more than any other thing
in the past, to bring the liquor traf-
fic into disrepute.

Many a man who would have gone
home sober or fairly sober many a
night, had it not been for the bottle
that he was fool enough to purchase
just before he left the bar-room.

Many a man who drops into a bar-
room in the evening and buys a drink
or two of liquor, would have passed
on his way sober or nearly so, but
for the habit that prevails amongst
certain classes of men, of purchasing
a bottle of whiskey and drinking it
outside the hotel, either on the road,
on some other premises, or at their
own homes.

Many times when men lose control
of themselves and are not allowed to
get liquor in any form in a bar-
room, they have sent friends into
the bar-room to buy a bottle, so that
men who cannot legally buy liquor
in a bar-room, have often been seen
drunk on the road side, or have been
arrested for being drunk on the
streets, simply because the law al-
lowed the hotel-keepers to sell bot-
tles over the bar.

As far as licensed hotels are con-
cerned, the reign of the bottle is
passed, and it is right and proper
that it should be so.

The proper idea of a hotel and
saloon license is to sell liquor by
retail—by the glass, not by the bot-
tle.

It is the proper idea, because the
bar tender can then know exactly
what each individual is drinking,
and when a man shows any inclina-
tion to drink more than is proper,
the bar-tender can refuse to sell to
him and as a matter of fact, bar-
tenders have refused in thousands
of cases, to sell liquor to men whom they con-
sidered had had enough.

Under the old order of things,
these men, on leaving the bar-room
could send a friend for a bottle, and
if the man who went for the bottle
was of the right stamp, he could
always get it. The person whom he
got it for, instead of getting liquor
by the glass, was getting it by the
bottle, or in other words, instead
of drinking it by retail, he was
drinking it by wholesale.

Under the new regime, if the law
is properly enforced individuals
will have to content themselves to
buying liquor by the glass, in hotels
and saloons and it is right and prop-
er that they should be restricted
to this.

Year Will be Something
Worth While and all the
Old Ones Will Be Right
on Hand.

The fourth annual opening of
Grimsby Beach will take place Vic-
toria Day, Saturday, May 24 and
by reference to the three column ad-
vertisement on another page, it will
readily be seen that the opening this
year will be bigger, better, greater
and grander than ever.

The new roller coaster will
give you a trip that you will re-
member until the next holiday. Every
body should take a ride on the roller
coaster and some people
should take half a dozen.

The Midway will be full swing
again, with better attractions than
it ever had before.

Moore's moving pictures will be
open and everybody who knows
Moore, will know what to expect.

There will be two merry-go-rounds
this year and one of them will be as
big as any in Canada.

Robinson's electric fish pond, Prof.
Toynbee's camera obscura, Wag-
horne's donkeys and ponies, Prof.
Davis' dancing pavilion, the hoopla,
basket ball, doll racks, skittles, bil-
liards, plate rack, swing ball, ball
rack, rifle ranges, noddle ball and
the swings, will make up a list of
amusements that will keep you busy
from early dawn until the close of
day.

The Park House will be open, the
restaurants will be in full swing,
and there will be ice cream parlors
and candy stores galore.

The Macassa will run to and fro
between Toronto and Grimsby, and
the Grimsby Beach will be open
and those who cannot get accommo-
dation to travel that way, will resort
to the automobile, motor cycle and
the old time horse and buggy.

At 2 o'clock in the afternoon a
performance will be given in the
Auditorium, but what the perfor-
mance will be, is a mystery yet, but
we have the promise of the manager
that it will be a cracker-jack.

SOME FISH STORY ALSO SOME FISH

Joanson Bleakley, Jr., of the T. H.
& B. detective staff, Hamilton, in
company with a couple of friends,
spent a few hours one afternoon last
week at Grimsby Beach, and while
there took advantage of the opportu-
nity to enjoy the pleasure of an hour's
fishing, the catch being the largest so
far reported this season. For the
first time in the history of rod and
line fishing at that point, the party
succeeded in landing five large stur-
geon, a class of the finny tribe never
before caught at the park lake front.

In addition to the sturgeon, a num-
ber of smaller fish were landed, mak-
ing in all over sixty fish caught with
in one hour. One of the sturgeon
captured was nearly four feet long,
and it took the united effort of the
party nearly thirty minutes to land
it, and after leading it they had to
hit it on the head with a baseball
bat in order to prevent it getting
away from them and hopping back
into the lake. A five-foot eel was
also included in the afternoon's
catch.

This is fish story No. 1—others
will follow.

Facts and Fancies

Continued from page 1

cents. It is possible to ride the length or breadth of the city over well conducted electric lines, and to transfer from one line to another without charge.

Why is this outrage allowed to continue? Why are the franchise grabbers of these municipalities treated so ungenerously? Why are the inhabitants granted such pauperizing concessions? It is perfectly absurd. Why, here in New York which is acknowledged by the humblest politician to be the most efficient government in the world, we charge more than that for transporting the sound of your voice a few blocks, to say nothing of transporting the entire body.

Let not this matter become noised abroad in the land. If the people of other cities should find it out, there is no telling how pestiferously they might demand an explanation that would be both logical and satisfying. Rather let the facts be hermetically sealed and fled away in the archives of the Associated Suppress.

A young lady from Hamilton was arrested in Detroit the other day for eloping with a man.

She was very repentant when taken to the police court and stated that she had prayed earnestly for guidance in the matter and because she got no reply, she decided to go ahead and elope anyway.

This young lady's mind was perverted with regard to prayer, by the false doctrine that has been taught all over our country, during the past one hundred years, to the effect that God answers prayer.

God does not answer prayer in the sense that the young lady understands it, and as thousands of others understand it.

God gives every rational being in this part of the country at least, the knowledge of right and wrong, and to pray for guidance to do right and then go and do wrong, is simply the act of persons who ask for advice and then do as they please anyway.

When a person knows the difference between right and wrong, there is no use in asking God or anyone else for guidance in the matter. Their own minds point out the proper course. If they choose to take the opposite course, then they have to take the consequences.

Praying to God at a time of temptation is certainly a very wise practice, because no matter what action God may take in the matter, the act of prayer on the part of anyone, is an incentive or a help to him to take the right course and follow it, in the face of temptation.

On the other hand, the act of praying to God with the idea that He is going to perform some miracle to help the supplicant, is the purest kind of nonsense, and it does more to breed weaklings than any other system in vogue in our Christian institutions.

If men and women were taught to depend on themselves in the face of temptation with the strength that God has given them, they would soon develop more strength, develop courage and develop an armour that would withstand the darts and arrows of temptation.

Some people develop the habit of running to God for assistance, and then when God does not reach out His hand and pluck them up from the earth and protect them by His omnipotent power, they immediately give way and fall a victim to the snares and temptations, not of the devil, but of the world around them.

It is the suggestion that has been drilled into the minds of the people for generations that they are victims of temptation, that they cannot withstand, that has made the people weak, rather than the overpowering nature of the temptations.

For instance, the church and all its teachers have for ages suggested to a man that he would become and could become a victim of the appetite for drink, and once he became a victim of that appetite, that nothing could save him but the grace of God or the entire removal of the drink from the face of the earth.

That suggestion or line of teaching has filled thousands of drunkards' graves and all the while it was the purest fallacy—it was an untruth, it was a fabrication.

There is no such thing as an irresistible appetite for strong drink, as I have proven conclusively in thousands of cases.

I have known personally hundreds of men who were acknowledged by the church and by its teachers to have an unconquerable appetite for strong drink, yet these same men in a single day, threw that appetite to the winds and never took another drop of strong drink although they passed by the bar-room's open doors every day in the week, or every hour in the day.

Hundreds of men are led to believe by the suggestions of their pretended friends that they are victims of an appetite and in many cases these men wake up and find that their pretended friends were lying to them—lying to them unconsciously, but lying to them just the same.

The trouble with suggestions of this kind, is that the victim believes that he is a victim and just as soon as temptation comes along, he imagines and believes that he cannot withstand it and that he must give way to the demands of his appetite and proceeds to make a glutton of himself.

As soon as a man wakes up and finds that he is not a victim and that the church and its teachers have been fooling him for years, he immediately laughs at temptation and goes about his business as a free man.

Hundreds of young girls are ruined every year on account of the fact that they are taught that they are weak and they are liable and in great danger of being overcome by temptation. The result is that when temptation meets them, they take it almost as a matter of course that owing to their weak condition, and owing to the enormous strength of the temptations, they must fall.

If these girls were taught that they were strong, that they could overcome temptation, that they could practically laugh in its face and that that would be the proper thing to do, they would go out into the world and do just that thing.

I have taken an arrant coward and by suggestion, made him believe that he was the making of a prize fighter—made him believe that he could lick any boy in school, or clean out a bar-room, tumbling out everybody head over heels from back and front doors, any time if he pleased. When under the power of that suggestion, he could do that very thing.

I could take that same man and make him believe that as a fighting man, he was utterly useless and that Tom, Dick or Harry would easily lick him, and when under the power of that suggestion, any school boy could make him take to the tail timbers.

I have seen boys and men who allowed themselves to be bullied and buffeted about by everybody, and who hardly dare say that their souls were their own, until I or somebody else gave them a backing and told them to jump in and fight and that they would be able to lick John L. Sullivan, and lo and behold those same boys or men would fight like trojans—just as soon as they got the idea into their heads that they were heroes and fighters from away back.

I saw a boy who bully-ragged a whole school for years and he was big enough and strong enough to do it, but I licked him inside of three minutes, when I made up my mind that he would bully me no longer, and after that anybody in the school could lick him.

If the girls of this country were taught by their parents and Sunday school teachers, by the newspapers and by all our teachers and preachers, that they were strong, that they were pure and noble and good and that it was their right and duty to remain so, a great percentage of them would remain that way, but our present method of teaching is that they are weak, that they cannot withstand the temptations and that girls are constantly expecting to be tempted and constantly expecting to fall.

A man who goes into a rough-and-tumble fight expecting to be licked, will be properly licked, because he is licked before he starts.

I never did a wrong act in my life that I could not have refrained from doing if I had so wished and if I did the act, I did it entirely on my own responsibility and I knew I was doing it. I did not lay the blame on God, on the Devil, or my Sunday school teacher, or anyone else, I laid the blame where it belonged, to my own individual self.

This idea of a man or woman running into evil and then when the effects began to punish them, laying the blame on the devil or on the tempter, or on everybody else but themselves, is about played out.

The fault of our teachers, preachers and churches is that they blame every agency in the world for the downfall of man and woman, but the correct agency and that is the individual.

If a man drinks, we blame the bar-room and the treating system, or jovial company, when as a matter of fact, there is not anyone to blame but the individual himself.

When a man falls and becomes an embezzler, we blame the race track, the gaming table, the clothes, love of society, women, drink, and every other old thing in sight, except the real culprit, the man himself. He is the only one to blame. No other agency had in real reality anything to do with his downfall, but himself.

As a proof that I am correct in this diagnosis of the case, I have only to point to the hundreds of other men all around us, who are subjected to the same temptations of the race track, the gaming table, drink, women, society, and all the rest of them, and yet these men do not fall. They go on and live honest lives and are decent citizens and laugh at the temptations to which the other men succumbed.

What the church should teach and what our preachers should preach and what our Sunday schools should inculcate in the minds of the young, is that they can be strong, that they can be brave, that they can resist, that they can flout temptation and laugh in its face and go their way, strong in the knowledge that they are able to withstand.

I will admit that there are men and there are women who are weaklings by nature, but the church has made these weaklings still weaker by suggestions, by constantly holding up before them the strength of the temptation which may assail them, and by constantly reiterating in their faces, their own weakness.

A man said to me, "I am weak, I cannot resist." I said to him, "You are a liar. You are not weak, but you imagine you are weak. You have been taught that you are weak, and you are too big a fool to realize that you have been fooling yourself and that your teachers have been fooling you all your life. You can be strong tomorrow if you want to—if you put forth the same effort to encourage your strength, that you put forth in hunting for means to satisfy your weaknesses, you would be as strong as Samson.—Good-day."

Your Boy is Entitled to a Free Canadian Farm

Why worry about the future of your sons? The Government at Ottawa is giving away this year 150,000 free homesteads in Western Canada. The bulk of these are located along or near the Canadian Northern Railway, the line recognized in the West as the PIONEER FARMER'S RAILWAY.

This title was secured because the Canadian Northern Railway never lacked courage to build its steel into new districts, placing the railway and all that it stands for, within easy reach of the pioneer.

From now on to the end of October Homesteaders Excursion tickets to Western Canada are on sale every Tuesday. These tickets are good to return within two months from date of issue, except tickets sold from May to July, inclusive, may be extended for two months on payment of Five Dollars for each month or part thereof to agent at destination. Stop-over will be permitted at any Canadian Northern Station west of Port Arthur. For the accommodation of passengers, a Tourist Car for Winnipeg via Chicago and Duluth, will leave Toronto Union Station at 11 p.m. on the following dates:—June 2nd, July 1st, July 25th, August 20th, September 13th and October 21st. Write for full particulars.

BADLY ULCERATED LEG

Zam-Buk Cured Her when so Bad She Had to Use Crutches.
For varicose sores, bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amburst St., writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not heed it, but it got so bad that I could hardly walk. I sent for our doctor, and he told me that I would have to lay up with the wound. I did so for three weeks. At the end of that time the ulcer healed a little, but I could only move about by using crutches."

"The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year. This, I knew, was impossible, as I had a family to attend to. "My son had cured a bad cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I had no more sleepless nights, and was also able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever. To any person suffering from ulcerated sores I would say, 'try Zam-Buk.'"

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, bruises, eczema, eruptions, and all other injuries and diseases. All druggists and stores 50c. box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c. tablet.

Queen Amelle.

The bride-elect, the only daughter of Prince William, the head of the non-reigning line of Hohenzollern, was born in Potsdam, Aug. 15, 1890, and is nine months younger than her fiancé. Manuel is second cousin to his future bride through her paternal grandfather, Prince Leopold, Antonio, who was a daughter of Queen Maria da Gloria of Portugal, and so the aunt of King Carlos, Manuel's father. Princess Augustine's mother was an only child, the Princess Maria Theresa of Bourbon-Sicily. She was the grand-daughter of King Ferdinand II., of the Two Sicilies, better known as "Bomba," and the niece of Empress Elizabeth of Austria, of the Duchess of Alençon, who perished in the fire at the charity bazaar in Paris in May, 1897, and of Queen Maria Sophia, a heroine of the siege of Oporto. Her first cousin, I. Don Carlos, was once brother-in-law of the King of Spain, and has since married a sister of the Duke of Orleans. Another of her first cousins, Princess Maria Immaculata, married the brother of the King of Saxony.

The bride's senior uncle is the Crown Prince of Roumania, who married the Duke of Edinburgh's daughter, Princess Marie, and Prince Charles and Princess Elizabeth of Roumania are her first cousins while her great-aunt, the Countess of Flanders, was the mother of the King of the Belgians, of Princess Josephine, the wife of Prince Charles of Hohenzollern, the bride's junior uncle, and of Princess Henriette, Duchess of Vendôme.

Winnipeg, Jan. 6th.
"I have been a sufferer from Lumbago for some years past and during Christmas week had a very acute attack which confined me to the house. About the latter part of April, I met your Mr. Hill and mentioned my complaint to him. He advised me to take GIN PILLS. I have been taking them at intervals during the early part of the present winter, and up to date have had no return of my old trouble—in fact, I feel better than I have for years and think that my old enemy has vanished for good and all." I will especially mention the Coronation flour, which has been my leader and still holds its place. I also have on hand the Winter Wheat which is a cheap pastry flour at \$2.40 per 98 lbs. and some use this for baking bread with good satisfaction. But why bake bread when I get this in fresh every morning, on the 9.30 train. Do not wait till evening for you may be disappointed. DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two
Women—Their Statements
Worth Reading.

White Oak, Ont.—“At Change of Life when doctors could do no more and I was given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and backache and I was very anaemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine.”—Mrs. SYLVESTER MANNING, White Oak, Ontario.

The Case of Mrs. Kirlin.

Circleville, Ohio.—“I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life.”—Mrs. ALICE KIRLIN, 358 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

AN “EVE” HAS ARISEN WHO WILL NOT BOW THE HEAD OR BEND THE KNEE TO ADAM

(Continued from page 1)

what a surprise when God opened my eyes and out of my darkness God taught me His knowledge of the tree of life of good and evil, for I did what Adam failed to do. I took God at His word and told Him I made Him responsible for my life for all time to come, that He must teach me His will and see that I carried it out.

The Garden of Eden that God had prepared for Adam and Eve was heaven on earth, but when they refused to take God as their teacher, a turned them out or rather their own acts turned them out. Christ came, God created him a man after His own heart. Christ taught man that He always did the will of God and that all men could do it who wanted to and the reason they did not do it was because they did not want to.

What did the Adams do with Him? They had the vote and sat in the government seat, they killed Him, that was the way they took to get rid of God; trumped up a charge against Him, and the Adams who had gathered around Him, turned and fled, afraid of public opinion and the consequences of what it might mean to them.

Ever since women have been to the front. It was women who stood by the cross and were first at the tomb. They were not afraid of public opinion. They were ready to die with Christ. No wonder Christ went, when He found that after all His teaching and preaching, His disciples left Him alone, then He knew them as they were. So long as there was no trouble they were with Him, but they were protecting themselves, they could not be in perfect harmony and confidence and have fear for their lives, for God said “He that saveth his life shall lose it; he that loseth his life for my cause shall find it more abundantly.”

Now, there is a God-created Eve that God has made after His own heart, because she braved public

opinion to carry out God's will in every detail of life and her Eden is Adamless and the woman is no longer under bondage to man, for she has freed herself and all who are with her from slavery forevermore.

The tyranny of man wants woman to submit to him when he refuses to submit to woman. God still requires the human family to face themselves in God and let Him teach them all truth. No longer can man put the blame on woman, for woman demands justice and fair play. God stands for both. Man has blamed woman and woman has blamed man, why? Because they have taken that way of dodging the issue, instead of facing God and asking the reason why. Until they do that they will still remain the fools that Adam and Eve were. Adam could never see that woman had rights or give her liberty to assert her rights. We evolve after our own wills, until we decide to give God a chance to evolve us after the pattern of His will. I see the working of God's law every day for man.

“An Up-to-date Eve”

STONEY CREEK

The Tabernacle Women's Institute visited the Institute here on Thursday afternoon and gave a very interesting program. Lunch was served to the visitors and after their departure election of officers took place which resulted in the election of old officers.

Rev. W. S. Daniels held a baptismal service in the church on Sunday morning. Fifteen children were baptized.

Sunday School Superintendent V. Felker gave a short address on Mother's Day and James Milne sang “Meet Mother in the Skies.” A male quartette also gave a very acceptable quartette.

Samuel and Mrs. Platt of Beaverville, spent Sunday with friends here.

Reeve G. W. Millen left Monday morning for Cobalt, to spend a week.

The Christian Endeavor Department had charge of the League on Friday evening. The new officers were introduced and a consecration meeting followed. Next Friday evening will be the missionary topic.

Frank Cline has purchased the Gowers' flour and feed store.

The Mission Circle held its regular meeting in the Methodist church on Monday evening. Miss McClain of Hamilton gave a vocal solo; Miss Maggie Dodds, piano solo; Miss Bertha Gowers, reading; vocal duet, Misses McIntyre and McClain. Election of officers then took place. Hon. Pres., Mrs. G. W. Millen; President, Mrs. (Rev.) W. S. Daniels; Vice Pres., Miss B. Gower; Recording Sec., Miss Simpson; Corresponding Secretary, T. Nicholson; Treasurer, Annie Dodds; Supt. of systematic giving, Edith Fletcher.

THAT'S RIGHT

I have a suspicion that shoe horns are being used now-a-days to put women into their skirts. Yes!

And I also have my suspicions there are a pile of people who have not met Tobey, or worn his clothes. If you will just read my ad calling attention to the suits at \$20, that were \$25 and \$27.50, you can meet Tobey and make it a profitable meeting. You get something better than you expect and Tobey gets a customer. I have suits for men as low as \$9.95 and have them as high as \$35 and pants from \$2 to \$6.50. In our boys' department we give a watch, a ball and bat or a catcher's mask free.

Tobey, 56 and 52 James St., N., Hamilton, Ont.

CAN YOU SAY IT?

At a mock Parliament held in Bristol, the “Hon. Member for Sturminster” asked the “Right Hon. President of the Board of Trade” referring to the Merchant Shipping Act, 1894, Prevention of collisions: “Whether a lighterman, having two light lanterns in tow, would be required to light a lighter light on the lighter lantern, so that the lighter the lighter, the lighter the light?”

The President replied: “Obviously the answer is in the negative since the lighter lantern being the lighter, and the use of the comparative ‘lighter’ denoting that the light is already ‘light,’ the lighter of the lights would be required to light a lighter light on the lighter lantern, since the lighter lantern is lighter than the light lantern.”

A NEW KIND OF MATTRESS

Mr. O. W. Lake, who is well known to the residents of this district, has again returned to Grimsby and has prepared to clean and renovate feather ticks.

Mr. Lake has also a patented feather mattress and will make up one for you out of your own feathers. This mattress has two sides, one for summer use and the other for winter use.

It is light and durable and a child can turn it over.

Mr. Lake will call for your feathers or you can bring them to him at his place, just north of the C.T.R. tracks on Ontario St.

Be a Charming Woman

You never saw a beautiful woman who didn't have beautiful hair. The charms of a beautiful woman lie in her hair. Many women do not realize the attractions they possess because they do not give proper attention to the hair.

The women of the “400” are famed for their beauty, not because their facial features are superior to those of other women, but because they know how to keep young by supplying vigor, lustre and strength to their hair.

Up to a few years ago PARISIAN Sage could hardly be obtained in Canada. But now this delightful hair restorer can be had in every town. W. M. Stewart sells it in Grimsby, for 50 cents a bottle, and guarantees it to stop falling hair, eradicate dandruff.

If the seed grain is smutty, it should be given the formalin treatment. It will mean an increased yield and better quality at harvest time.

CARD OF THANKS

The children of the late Thomas Arthur Kemp desire to thank their friends and neighbors who so kindly assisted them at the funeral of their father. They also wish to thank the neighbors who so kindly sent the beautiful floral offering.

Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only knew as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their rapid action, cleansing and strengthening effect upon the bowels. They act to free the system—and keep it free—from the dist. and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug-gists. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in the quantity you desire at one store:

JUGGLING TWO PAIRS OF GLASSES

is often to indicate old age. Our Kryptok Invisible Double Vision Lenses obviate the need for two pairs of glasses by combining all ranges of vision in one pair. And since the lens is ground from one fused piece of glass there is no external visible line to distinguish it from a single lens.

We have had the pleasure of fitting many of our patients with these lenses in Shur-on mountings with much success.

Come in and see them.

Hamilton men know values and they figure that in ten days one thousand men will be "Beggandshannonized." There will
